PROFESSIONAL SUMMARY

IT professional with 6+ years managing end-to-end IT operations in hospitality and multi-site service environments. Hands-on experience with Windows environments, technical support, infrastructure automation, and optimization — a stack most IT candidates have never touched. Bilingual (Spanish native, English C1). Track record of maintaining 95%+ system uptime, automating manual workflows, and managing 10+ vendor relationships in 24/7 business environments where downtime has direct revenue impact.

CORE COMPETENCIES

IT Support L1/L2

Hospitality Tech (Opera PMS · Micros · Avaya)

Microsoft 365 & Entra ID

Active Directory & GPO

Network Infrastructure (Cisco · Aruba · FortiGate)

Ticketing & SLA Management

Workflow Automation (Power Automate)

Bilingual EN/ES

WORK EXPERIENCE

Numu Boutique Hotel (Tesseract Capital) May 2025 – Mar 2026

IT Systems Manager

- Managed complete IT stack (Opera PMS, Micros Symphony, Avaya PBX, FortiGate, network infrastructure) for a 30-user property
- Maintained 95% availability across all hotel systems — PMS, POS, PBX, surveillance, access control
- Resolved ~150 support tickets/month across all systems and departments
- Managed 10 vendor relationships and associated SLAs (hardware, software, connectivity, hospitality systems)
- Built IT processes, runbooks, and documentation from scratch — greenfield deployment with no prior IT structure

Levain & Co Jun 2024 – May 2025

Head of IT

- Built and deployed automated ticketing system (Microsoft Forms + Power Automate) handling ~100 requests/month, eliminating manual routing and follow-up
- Eliminated 6 paper-based processes across all departments through digital workflow automation
- Secured network perimeter with FortiGate firewall and deployed Grandstream VoIP infrastructure
- Managed SQL databases (MariaDB, SQL Server Express) and built automated reporting pipelines

Head of IT

- Migrated 100+ users from Rackspace to Microsoft 365 (Exchange Online, SharePoint, Teams, Entra ID) with zero data loss
- Built Active Directory domain from scratch with full GPO policy framework for user and device management
- Automated SQL backup system covering 3 databases with cloud failover — used in 1 successful recovery incident
- Developed 2 internal mobile applications (Angular + Ionic) deployed to Security and HR departments
- Led team of 4 IT employees across infrastructure, support, and development
- Managed full multi-site infrastructure: servers, switches, APs, DNS, DHCP, VPN

PROJECTS

Automated IT Ticketing System

Microsoft Forms + Power Automate. ~50 tickets/month routed automatically — eliminated manual assignment and follow-up.

SQL Automated Backup System

3 databases with cloud failover. Used in 1 successful recovery incident.

Microsoft 365 Tenant Migration

100+ users migrated from Rackspace with zero data loss.

Active Directory Domain Build

Full AD + GPO environment built from scratch across a multi-site organization.

EDUCATION

B.Eng. in Systems & Software Development — Instituto Tecnológico Sanmiguelense

2014 – 2018

Specialization in Web Development and Hybrid Systems

SKILLS

Cloud & Identity: Microsoft 365, Entra ID, Exchange Online, SharePoint, Teams, OneDrive

Infrastructure: Active Directory, GPO, DNS, DHCP, Windows Server, Linux (basic)

Networks: Cisco, Aruba, Fortinet (FortiGate), Nomadix, VPN, VLAN

Hospitality Tech: Opera PMS, Micros Symphony Cloud, Assa Abloy, Nomadix, Sonos

PBX & VoIP: Avaya, Grandstream

Security: Dahua, Hikvision, Axis Communications

Databases: MariaDB, PostgreSQL, SQL Server Express

Automation: Power Automate, Bash scripting

Ticketing: ServiceNow, custom Power Automate workflows

LANGUAGES

Spanish — Native | English — Advanced (C1), professional and technical proficiency
